Themes for the Contest

What would your imagination create in outer space?

Students can create art and craft projects based on planets, stars, rockets, astronauts, and space missions. You can explore the wonders of the universe and showcase their understanding of space-related concepts.

What endangered animal do you love?

Participants can create art that raises awareness about endangered animals and the importance of conservation. You can use different art techniques to depict the beauty of these species and the need to protect them.

How to bring the ocean to life?

Students can focus on marine life, underwater ecosystems, and the impact of pollution on oceans. You can use various art forms to portray the beauty and fragility of the marine environment.

How to Participate?

Students need to create a project based on their idea for any theme given which they are more interested.
